

Sket. 16

Project Name:

P1 draft 1 :

CONTACT

Date: 2. 11. 23

link to home page

most important:
- info clear for user
Can click to call / mail?

↳ text in code

acknowledges as 'email' or number type.

Small divider (consistent in color to 'get in touch' bar on home screen)

also link to home page

border to separate 'enter info' content -

Q.

revision
PTO

Small image/icon?

"you've reached out
if you've contacted
through desktop or phone"

if not, we consistently
for all types.

Here, the 'get in touch' could trigger a mail:to instead of link to the page as we can already have?

links to home page

link to have page

dropdown of options

Set as regular fields.

Must not be able to submit what is regular fields. block
